

# Tasmanian Alkaloids Pty Ltd

## Vacation Placement Opportunity for Engineering Student/s (Mechanical, Mechatronic, Electrical or Chemical, Engineering)

### About Tasmanian Alkaloids

We are a globally focused innovative research and manufacturing company based in Tasmania, Australia. Our business is fully integrated from field to factory to finished goods - producing botanical extracts and purified products.

Tasmanian Alkaloids was established in 1975 in a small rural town (Westbury) in Tasmania surrounded by world-renowned pristine natural beauty, rich soils and the ability to produce exceptional agricultural products.

Over the past 40 years we have grown to be a world leading fully integrated manufacturer and exporter of controlled substance extracts focused on positively impacting quality of life around the globe. We are an established world leader in supply of medicinal opiates and rapidly advancing our ambitious but achievable cannabis business plans.

Expressions of Interest are invited for vacation employment opportunities, for up to 12 weeks, over the Christmas vacation period from motivated students who will have completed their **3rd** year of studies in either mechanical, mechatronics, electrical or chemical, engineering.

The role will encompass experience within a maintenance / engineering / manufacturing environment.

### Selection criteria will include:

- Demonstrated interest in engineering and its practical application.
- Own transport (for travel to Westbury).
- Demonstrated ability to work independently and as part of a team.
- Excellent written and verbal communication skills.
- Solid analytical and problem-solving ability.
- Australian working rights (essential).

**National Police checks will be required to obtain security clearance for the site.**

Please forward expressions of interest, including:

- current resume and cover letter,
- academic record,
- referees

to [janine.reilly@tasalk.com.au](mailto:janine.reilly@tasalk.com.au) by close of business 18 October 2020.

For further information, please contact Rodney Bussey, Maintenance and Utilities Manager, on 03 63 935 508.
